Home Remedies for Marriage and Children

To Get a Wife -

'पत्नीं मनोरमां देहि मनोवृत्तानुसारिणीम्। तारिणीं दुर्गसंसारसागरस्य

कुलोद्भवाम् ।।'

'Patnim Manoramaam Dehi Manovrittaanusarini. Taarini Durgasansarasagarasya Kulodbhavam.'

Start chanting this mantra 10 times daily from an auspicious time. The total number of chants is one and a quarter lakh. But it has been observed in experience that before reaching one and a quarter lakh, usually the obstacles in marriage are removed. By doing this, a compatible and supportive wife from a good family is definitely obtained.

Note: Those who are not able to get married due to 'mangaldosha' etc., due to debts of previous birth or due to very weak chances of marriage, they should chant the above mantra and recite 100 times Durga (Shatchandi). Marriage will happen.

A Kaal Sarp Yog Puja is an effective but costly way to mitigate the negative effects of this yoga. It requires seven scholars and takes 7 hours to perform, so it is not something one can do alone. The puja is typically done in temples like Mahakaleshwar (Ujjain, Nashik, etc.) and group pujas are also held on special days such as Nag Panchami or Maha Shivratri. While group pujas are less effective, they are a more affordable option for those with limited resources.

Even then, by not getting disheartened and trying again and again with devotion, success is achieved.

Actually, these are a kind of previous symptoms/omens. If the problem related to the planet is not relieved soon (the planet is very angry), then the animal/creature related to it does not accept the donation, or is not found at all, or shows displeasure. But if it accepts peacefully or shows love or is found easily (comes on its own), then it is an auspicious sign. It means that the troubles related to that planet will be removed soon.

It is also not true that if your luck is not changing soon or good times are not coming, then you do not get remedies. You are not able to meet an astrologer or a doctor (if you meet him, he is not suitable). Even if you meet him and get remedies, you are not able to start it due to some reason or the other. Even if you start, you are not able to continue. Either you leave it yourself or you leave it due to some reason or the other. Or there are repeated obstacles. Many times the planet scares you by giving negative results in the beginning, due to which you get scared/believe the remedy to be bad and leave it yourself. Because if you do the remedy, then the planet will

have to become good. Whereas it does not want to become good without punishing the previous sins of the doer. That is why it creates obstacles.

AVOID **There are many reasons for Pitra Dosh. It is not possible to tell all**

There are many reasons for Pitra Dosh. It is not possible to tell all the reasons here. Here we will tell the main reasons which create Pitra Dosh. If it is already present, it increases it. If it is increased, it makes it complicated and incurable. Hence, this is also a forbidden/prohibited act. At least those with Pitra Dosh should strictly avoid them. The rest of the people should also avoid them as much as possible because if these doshas are done repeatedly for a long time or if they increase in quantity, they create Pitra Dosh. Apart from this, they also gradually spoil the good planets of the horoscope.

Removal of obstacle in child birth -

This mantra belongs to Varun (and Gayatri) who is the patron of the genital centre. Hence, due to the effect of chanting this mantra, necessary changes take place in the body of the person chanting it and obstacles in fertility are removed. It is especially useful for those who are unable to have children due to 'Nadi Dosha'.

'ॐ यं यं यं भूः भुवः स्वः ॐ तत्सवितुर्वरेण्यं भर्गो देवस्य धीमहि धियो यो

नः प्रचोदयात्।'

'Om Yam Yam Yam Bhuh Bhuvah Swah Om Tatsaviturvarenya Bhargo Devasya Dhimahi Dhiyo Yo Nah Prachodayat.'

Both the husband and wife should observe fast on Sunday. Inhale and hold the breath, then chant the above mantra 3 times, keeping the wish of having a son/daughter in mind. Chant on a sandalwood rosary. Keep Gayatri's picture in front or imagine her as a child wearing white clothes holding a lotus. Exhale. Inhale again and chant 3 times. Chant 3 times in each repetition. (Total 108 times/one rosary; this way 108 will be completed in 36 pranayamas. Gradually increase the practice. After a little rest do 3/4 sets of 36 pranayamas daily. Then worship Gayatri Devi with kheer and honey and consume the prasad; rice has the power of Gayatri.

Therefore, offering of Kheer is very essential. This ritual corrects the Nadi Dosh/genital obstruction of the husband and wife in a year and makes them capable of having children. It has been tested in many cases of Nadi Dosh. Special - If there is 'Pitru Dosh' along with 'Nadi Dosh', then getting a child is almost impossible/extremely difficult. Such people should also do the remedy for 'Pitru Dosh' removal for at least 1 to 5 years.

How to wear the gemstone (day, finger, purification) 1

NOTE **Method and fingers of wearing Gemstone**

Select the following days for wearing gemstones:

- Sunday for gems/metals/herbs etc. of Sun
- Monday for pearls etc. of Moon
- Tuesday for coral etc. of Mars
- Wednesday for emerald etc. of Mercury
- Thursday for topaz etc. of Jupiter

Thursday for topaz etc. of Jupiter
Friday for diamond etc. of Venus
Saturday for sapphire etc. of Saturn
Wednesday (or Saturday) for Onyx etc. of Rahu and Thursday (or Tuesday) for Cat's Eye etc. of Ketu are appropriate to accept.

Wear gems in the Shukla Paksha and in the Hora of the planet to which the gem belongs. Before wearing gems, they should be purified. For this, soak them in raw milk and Ganga water or Panchagavya for 12 hours. In the morning, when you want to wear them, clean them and burn incense, then keep them in front respectfully or in the left fist and with the right hand chant the first rosary of Ganesh mantra, with the second rosary of the planet's deity and five rosaries of the planet's mantra (11 rosaries / 10 rosaries are best, five are medium and one is normal. But in the absence of time, do chant one rosary of the planet). In the end, chant the rosary of the planet's mother as well and it is good, otherwise bow to her and touch the gem to the feet of the deity and then wear it.

Generally, Jupiter's gems/metals are worn in the index finger, Saturn/Rahu/Ketu in the middle finger, Sun/Mars in the ring finger, Mercury/Moon in the little finger. Venus' gems are worn in the ring finger, metals are also worn in the thumb. Moon's gem pearl can also be worn in the index finger (fingers can be changed in special problems). Metals are also worn in the neck or arm. Generally, opposing gems are not worn together (except for prevention).

Gems, Metals, Colors, Herbs, Substances of the Planets

How to wear the gemstone (day, finger, purification) 1

NOTE **Method and fingers of wearing Gemstone**

Select the following days for wearing gemstones:

Sunday for gems/metals/herbs etc. of Sun
Monday for pearls etc. of Moon
Tuesday for coral etc. of Mars
Wednesday for emerald etc. of Mercury
Thursday for topaz etc. of Jupiter
Friday for diamond etc. of Venus
Saturday for sapphire etc. of Saturn
Wednesday (or Saturday) for Onyx etc. of Rahu and Thursday (or Tuesday) for Cat's Eye etc. of Ketu are appropriate to accept.

Wear gems in the Shukla Paksha and in the Hora of the planet to which the gem belongs. Before wearing gems, they should be purified. For this, soak them in raw milk and Ganga water or Panchagavya for 12 hours. In the morning, when you want to wear them, clean them and burn incense, then keep them in front respectfully or in the left fist and with the right hand chant the first rosary of Ganesh mantra, with the second rosary of the planet's deity and five rosaries of the planet's mantra (11 rosaries / 10 rosaries are best, five are medium and one is normal. But in the absence of time, do chant one rosary of the planet). In the end, chant the rosary of the planet's mother as well and it is good, otherwise bow to her and touch the gem to the feet of the deity and then wear it.

Generally, Jupiter's gems/metals are worn in the index finger, Saturn/Rahu/Ketu in the middle finger, Sun/Mars in the ring finger, Mercury/Moon in the little finger. Venus' gems are worn in the ring finger, metals are also worn in the thumb. Moon's gem pearl can also be worn in the index finger (fingers can be changed in special problems). Metals are also worn in the neck or arm. Generally, opposing gems are not worn together (except for prevention).

Peacock-feather consecration for a troubling planet 1

25. Use of Peacock Feathers for Versatile Benefits

25. Use of Peacock Feathers for Versatile Benefits

For the planet that is troubling you, count backwards from 9 from Sun to Ketu and take that many peacock feathers.
Clean those feathers with Gangajal (especially the sticks).
Then tie a thread of the color of that planet on their sticks.
Place them in a plate with 8 whole betel nuts, recite the mantra of that planet and chant it 21 times adding

'जाग्रय स्थापय स्वाहा' 'Jaagray Sthapay Swaha' at the end.

Sprinkle Gangajal on them with every mantra.
Then offer the item of that planet as bhog.
Consecrate those feathers in this way. (Like for Moon - 'ॐ सों सोमाय नमः जाग्रय स्थापय स्वाहा' 'Om Som Somay Namah Jagray Sthapay Swaha').

Benefits

Keeping them in the treasury increases wealth and brings prosperity.
Placing them on the main door removes Vastu defects.
Placing them on the study table increases concentration, intelligence and knowledge.
Keeping them near the head of the patient gives him health and protection.
Keeping them in the living room increases good luck and peace.
Keeping them near you removes planetary obstacles/pain.
If fanned with them, negativity goes away.
If kept near the head while sleeping at night, fear and nightmares are destroyed.
If placed on the walls, positivity increases and lizards do not come.
