Summary. At the recorded time the 5th cusp sub-lord is Mercury, which signifies houses 1, 3, 7 and 9 and so denies children, yet she has two. Moving birth about 23 minutes earlier gives a 5th sub-lord (Rahu) that promises children, a 7th sub-lord (Sun) that strongly promises marriage, and a 10th sub-lord (Venus) whose mix of 6-10 and 5-8 matches her stop-and-start working life. The ascendant lords also agree with the KP ruling planets, and the automatic event score ranks this window first.

1. Method

Every possible birth time in a window of ±40 minutes around the recorded time was tested in 10-second steps (481 candidate charts). Each candidate was scored against her life events and life facts using four independent layers. A time has to pass all of them to be accepted.

1. Ascendant sign
Parashari dasha, D7 / D9 / D10 divisional charts and Jupiter–Saturn double transit narrow the lagna.

2. KP cusp promise
Sub-lords of the 4th, 5th, 7th, 10th and 12th cusps must signify the houses her life events need.

3. KP event timing
The dasha, antardasha and pratyantar lords running at each event must signify the right houses.

4. Fine tuning
KP ruling planets, Kunda and Pranapada checks, and the Nadi amsa (D-150) window.

Life facts used: married; has children. Events known only to the year carry 30% of the weight of an exact date.

2. Why the recorded time was rejected

In KP an event can happen only if the sub-lord of its cusp signifies the houses the event needs. Green houses are the ones the event needs; red houses work against it. Houses before the + come through the sub-lord's star lord and carry the most weight.

CUSP	NEEDS	RECORDED 18:11:19		RECTIFIED 17:48:30	
5 Children	2, 5, 11	**Mercury** 1 3 + 7 9	**Denied**	**Rahu** **2** 3 7 + 4 **11** 12	**Promised**
7 Marriage	2, 7, 11	**Saturn** 1 3 + **2** **7**	**Partly**	**Sun** **2** 3 **7** + 9	**Promised**
10 Career	2, 6, 10, 11	**Jupiter** 4 5 **6** 8 **10** + 1 3	**Promised**	**Venus** 5 **6** 8 **10**	**Promised**

12 Foreign travel	3, 9, 12	**Saturn** 1 **3** + 2 7	**Partly**	**Mars** 5 6 8 10 + 4 11 **12**	**Denied**

Deciding test. A chart with two children cannot have a 5th cusp sub-lord that signifies none of 2, 5 and 11. The recorded time fails this; the rectified time passes. The marriage and career promises also become clearer at 17:48:30.

3. Scoring across the window

Combined score (0–100) of every candidate birth time from 17:31 to 18:51.

Band: KP ascendant sub-lord. Venus Sun Moon Mars Rahu Jupiter Saturn Mercury Ketu

The curve is the combined score (0–100) of every candidate time. The rectified window leads with an average of 34.1, just ahead of a Capricorn-lagna window around 18:45 (33.3), which is rejected because its 5th and 7th cusp sub-lords deny children and marriage. The recorded time scores 26.4.

4. Life events at the rectified time

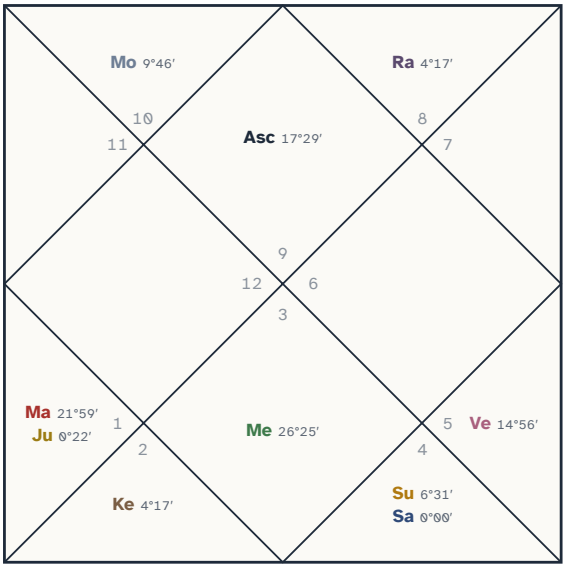

Dasha lords (mahadasha – antardasha – pratyantar) at each event, with the cusp sub-lord that governs it. "Dasha" is how strongly the three running lords signify the needed houses; "Cusp" is the promise of the governing cusp.

Reading the evidence

- **Marriage (Rahu–Saturn–Rahu):** Rahu signifies 2, 3, 7 and 11, Saturn 2, 3 and 7. All three lords point to marriage, and the 7th sub-lord Sun signifies 2, 3 and 7.
- **Second child (Rahu–Moon–Jupiter):** Rahu signifies 2 and 11, Jupiter signifies 5. The 5th sub-lord Rahu promises children.
- **Mother's passing (Jupiter–Mars–Mars):** Jupiter and Mars both signify 5 and 10, the maraka houses for the mother, and Mars adds 11.
- **Foreign travel (Jupiter–Rahu–Saturn):** Jupiter and Rahu both signify 3, and Rahu adds 12.
- **Weak points:** the first child and first job fall in Rahu–Mercury, and Mercury signifies 1, 3, 7 and 9 here. Business closures score low because their dates are known only to the year and the 7th sub-lord Sun does not signify the break houses. These are reported openly rather than adjusted to fit.

What changes from the recorded chart

- Ascendant moves from Sagittarius 23°12′ to 17°35′; the ascendant sub-lord changes from Saturn to Mars.
- Cusp sub-lords change: 5th Mercury → Rahu, 7th Saturn → Sun, 10th Jupiter → Venus.
- The Moon moves to Capricorn 9°52′ (Uttara Ashadha, Sun star). Dasha balance shifts by about four months; Jupiter mahadasha ends in August 2026 and Saturn mahadasha is now running.

Confidence

Moderate. The children and marriage cusp tests clearly favour 17:48 over the recorded time, and three independent methods agree. The automatic score lead over the next window is small, and five of the ten events are dated only to the year.

Details that would confirm or refine the time

- Father's status, and the exact date if he has passed away (tests the 9th cusp).
- Number of siblings and whether elder or younger (3rd and 11th cusps).
- Exact dates of the first job, business starts and closures.
- Date education was completed; any major illness, surgery or accident.

Important note

This report applies the rules of KP and Parashari astrology consistently to the information supplied. Astrological rectification is not a scientifically established method, and it cannot confirm a birth time the way a hospital or municipal birth record can. Where an official record exists, it should take precedence. The rules, weights and house groupings used are listed in the accompanying btr-rules.json file.
