Method used

Whole-sign houses are counted from the Lahiri Prashna Lagna. The judgement weighs the Lagna and its lord, the house of the matter and its Karyesh, dignity, house placement, combustion, retrograde motion, Vedic aspects, the Moon's paksha and applications, supporting houses and Tajika connections including Ithasala and Easarapha. Timing scales degrees to perfection by movable, dual or fixed sign. Prashna offers guidance rather than certainty and should be used with practical judgement.
